# **LPG Trading, Marketing & Price Risk Management**

**London, October 13<sup>rd</sup> – 17<sup>th</sup>, 2014**

## **Course Summary**

This interactive course will provide a thorough understanding of the dynamics of LPG supply, pricing, shipping, trading and marketing both intra- and inter-regionally. It will include instruction from, and discussion with industry experts and syndicate exercises/case studies will assist the understanding of major industry activities and issues. The course will have a modular structure with the primary focus being on international trade, physical and paper trading of LPG including managing exposure to price risk. Examples of the topics covered are:

- **Production Sources and Trends**
- **Consuming Markets, Sectors and Trends**
- **Global Trade Patterns**
- **Price References and Interpretation**
- **Netback Analysis**
- **Project Appraisal**
- **LPG Shipping**
- **Terminals and Constraints**
- **International and Regional Pricing**
- **Trade and Trading**
- **Trade Dynamics and Strategies**
- **Negotiating Strategies**
- **Price Risk Management**
- **Derivatives**
- **Hedging Strategies**

## **Course Participants**

The course is specifically designed for personnel in companies concerned with production, export, import and marketing of LPG and those providing trading, broking and financial services to the industry. Previous courses have been highly successful since the programme started in 2003 and feedback from participating delegates suggests that it has become an important part of their personal development in the LPG world. To-date the courses have trained almost 500 members of the LPG Industry. It is planned to limit the number of participants on the London course to 20
